Tom 214–Tom 219, 1974

Vol. 15, Nos. 1–6 January–December 1974 Pages 1–1822

ANNUAL INDEX OF AUTHORS

Accardi, L. = Akkardi, L.

Afraĭmovič, V. S. and Šil′nikov, L. P. *On small periodic perturbations of autonomous systems* 206

On some global bifurcations connected with the disappearance of a fixed point of saddle-node type 1761

Aĭzengendler, P. G. and Alekseev, A. F. *On the stability of the zero solution of quasi-linear differential-difference equations with periodic coefficients* 510

Aĭzenštat, A. V. *On the Riemann and Haseman problems on a countable set of contours* 715

Akkardi, L. [L. Accardi] *On the space of square roots of measures* 1144

Aksent′ev, L. A. See Avhadiev, F. G.

Aleksandrov, A. D. *Characterization of Euclidean motions* 1

On the foundations of the geometry of space-time. I 1497

On the foundations of the geometry of space-time. II 1543

Alekseev, A. F. See Aĭzengendler, P. G.

Alenicyn, Ju. E. *Some area theorems for analytic functions with a quasi-conformal continuation* 619

Altaev, A. V. *Operators defined by γ-enumeration and related reducibilities* 895

Ambarcumjan, R. V. *On random fields of threads in R^n* 83

Amirdžanov, G. P. and Šapirovskiĭ, B. È. *On everywhere dense subsets of topological spaces* 87

Andrunakievič, V. A. and Rjabuhin, Ju. M. *Radical closures of right ideals and their complements* 1548

Antoncev, S. N. *Axisymmetric problems of gas dynamics with free boundaries* 803

Apanasov, B. N. *On a class of Kleinian groups in R^n* 515

Araĭs, E. A.; Šapeev, V. P. and Janenko, N. N. *Realization of Cartan's method of exterior forms on an electronic computer* 203

Arhipov, G. I. *Multiple trigonometric sums* 1702

Arnautov, V. I. and Vizitiu, V. M. *Extension of a locally bounded topology on a field to algebraic extensions of the field* 808

Arov, D. Z. *Scattering theory with dissipation of energy* 848

Arsen′ev, A. A. *Local uniqueness and existence of a classical solution of Vlasov's system of equations* 1223

On the existence of resonance poles and resonances in scattering in the case of boundary conditions of the second and third kind 1698

Aseev, V. V. *An example of an* NED*-set in n-dimensional Euclidean space, having positive* $(n-1)$*-dimensional Hausdorff measure* 855

Avhadiev, F. G. and Aksent'ev, L. A. *Functions of Bazilevič class in the disc and an annulus* 78

Babaev, A. A. and Sadyrhanov, R. S. *On a quadrature process for a singular integral and its application* 212

Baĭnov, D. D. See Konstantinov, M. M.

Bakunin, G. N. See Bavrin, I. I.

Bakušinskiĭ, A. B. and Poljak, B. T. *On the solution of variational inequalities* 1705

Balabaev, V. E. *A quaternion analog of the Cauchy-Riemann system in four-dimensional complex space and some of its applications* 152

Balinskiĭ, A. I. See Podstrigač, Ja. S.

Bandman, T. M. *The behavior of a quasi-conformal mapping near singular points of a characteristic* 1766

Barkovskii, V. V. *Investigation of two scattering problems of the type of Steklov's problem* 1293

Baškarev, P. G.; Karlovič, Ju. I. and Nečaev, A. P. *On the theory of singular integral operators with a finite group of shifts* 1553

Baškirov, A. I. *On the classification of quotient mappings and compact sequential spaces* 1104

Bavrin, I. I. *Operators in convex domains and integral representations* 573

Temljakov's integral formula with n-dimensional defining manifold in the space C^n 1584

Bavrin, I. I. and Bakunin, G. N. *Temljakov integral representations with two-dimensional defining manifold in the space* C^2 985

Belickiĭ, G. R. *On the conjugacy of germs of nonhyperbolic mappings of finite smoothness class* 1557

Belyĭ, V. I. and Mikljukov, V. M. *Some properties of conformal and quasi-conformal mappings and direct theorems of the constructive theory of functions* 156

Bercun, V. N. See Grišin, A. M.

Berhin, P. E. *On a boundary value problem for equations of composite type* 161

Bicadze, A. V. and Paškovskiĭ, V. I. *On the theory of the Maxwell-Einstein equations* 762

Bočkarev, S. V. *On a basis in the space of functions continuous in the closed disc and analytic inside it* 1195

Boglaev, Ju. P. *Degeneracy of order of growth in a boundary value problem with a parameter* 765

Singularly perturbed systems of Volterra integral equations with a nonintegrable singularity 1298

Boguš, A. A.; Fedorov, F. I. and Fedorovyh, A. M. *On finite transformations of the group* $SO(n, R)$ *and its representations* 255

Boĭkov, I. V. *The principle of compact approximation in the perturbed Galerkin method* 385
On the approximate determination of all solutions of functional equations .. 1190
On optimal algorithms for computing multiple singular integrals 1502
Boltjanskiĭ, V. G. *On the intersection of local tents* 1711
Botnaru, D. V. *On generalized bicategory structures* 1562
Reflective subcategories and right bicategory structures 1588
Braverman, M. Š. and Semenov, E. M. *Isometries of symmetric spaces* 1027
Bredihin, B. M. *A refinement of a new method in ternary and semiternary problems with prime numbers* 989
Brjuno, A. D. *Analytic integral manifolds* 768
Brudnyĭ, Ju. A. *Spline approximation and functions of bounded variation* 518
On a property of functions from the space H_p^λ 624
Bryčkov, Ju. A. *On the theory of the spaces* $S_p^r L(R_n)$ 1770
Bugrov, Ja. S. *On the regularity of linear summability methods for Fourier series* 1068
Buhgeĭm, A. L. *On a class of integral equations of the first kind* 390
Bukov, V. N. See Krasovskiĭ, A. A.
Byhovskiĭ, È. B. *Boundary and initial-boundary value problems "in the large" for a quasi-linear conservation law* 393
Čanturija, Z. A. *The modulus of variation of a function and its application in the theory of Fourier series* 67
Cecoho, V. A. See Voronin, V. V.
Čencov, A. G. *On stability conditions for a differential game* 614
Černavskiĭ, A. V. *Contractible neighborhoods in the group of homeomorphisms of a manifold* 1349
Čertanov, G. I. See Efimov, B. A.
Čilin, V. I. See Sarymsakov, T. A.
Cirel′son, B. S. *On the sum of periodic functions and an extension operator continuous in measure* 946
Čudnovskiĭ, D. V. See Čudnovskiĭ, G. V.
Čudnovskiĭ, G. V. *Transversals and properties of compactness type* 891
A mutual transcendence measure for some classes of numbers 1424
Čudnovskiĭ, G. V. and Čudnovskiĭ, D. V. *Descendingly incomplete ultrafilters* 1472
Cygankov, A. A. *Simultaneous orthogonality of polynomials on a contour and over the area of a region* 758
Danilin, Ju. M. *Conjugate gradient methods that do not require the solution of one-dimensional minimization problems* 1367
Davydov, È. G. *On the solution of Fredholm integral equations of the first kind* 1725
Dehtjar′, M. I. *On the complexity of relative computations* 273
Demin, V. G. and Kiselev, F. I. *A new class of periodic motions of a rigid body with one fixed point in a Newtonian force field* 270

Dezin, A. A. *A description of regular operators* 1516
Dikovskiĭ, A. Ja. *On the general notion of complexity of derivation in a context-free grammar* 98
Dmitriev, V. I. *Duality between the interpolation method of constants and that of means* 16
On the Calderón-Mitjagin interpolation theorem 528
Theorems on parameters for the interpolation method of constants 773
Dolbilin, N. P. *On the covering radius of hyperbolically equivalent n-dimensional lattices and on the boundedness of the index of a divided parallelepiped* 277
Dorogovcev, A. Ja. *On estimating the mean value of a stationary process under restricted opportunities for observation* 103
Dragilev, M. M.; Zaharjuta, V. P. and Korobeĭnik, Ju. F. *A dual relationship between some questions of basis theory and interpolation theory* 533
Dubrovin, B. A. and Novikov, S. P. *A periodicity problem for the Korteweg-de Vries and Sturm-Liouville equations. Their connection with algebraic geometry* 1597
Dudučava, R. V. *On convolution integral operators with discontinuous coefficients* 1302
Dynkin, E. B. *Additive functionals of Markov processes and their spectral measures* 330
Markov representations of stochastic systems 1442
Dynkin, E. B. and Kuznecov, S. E. *Determining functions of Markov processes and corresponding dual regular classes* 20
Dynkin, E. M. and Hruščev, S. V. *Interpolation by boundary values of smooth analytic functions* 1083
Džaparidze, K. O. and Jaglom, A. M. *Applications of a modified "scoring method" of Fisher to the estimation of spectral parameters of random processes* 1077
Džavadov, M. G. and Ètijubov, R. A. *Small parameter asymptotics of the solution of a boundary value problem for an elliptic equation degenerating into a parabolic equation* 685
Džrbašjan, M. M. *On the closure of a system of Mittag-Leffler type* 1788
Efimov, A. V. and Karakulin, A. F. *A continuous analog of periodic multiplicative orthonormal systems* 1307
Efimov, B. A. and Čertanov, G. I. *On some operations on classes of topological spaces* 731
Efremovič, V. A. and Tihomirova, V. S. *Volumes and contents in proximity geometry* 24
Eĭdus, D. M. See Vinnik, A. A.
Ètijubov, R. A. See Džavadov, M. G.
Emelin, I. V.; Krasnosel'skiĭ, M. A. and Panskih, N. P. *The spurt method of constructing successive approximations* 1602

Epifanov, O. V. *On a convolution epimorphism in convex domains* 994
Eršov, Ju. L. *Semilocal fields* 424
The model G of the theory BR 1158
Èsakia, L. L. *Topological Kripke models* 147
Esipova, V. A. See Vasil'eva, A. B.
Evtušenko, Ju. G. *Two numerical methods of solving nonlinear programming problems* 420
Fedorčuk, V. V. *On dimensional components of compact spaces* 505
Compact spaces without canonically correct sets 1272
Fedorov, F. I. See Boguš, A. A.
Fedorovyh, A. M. See Boguš, A. A.
Feĭnberg, V. Z. *Compact ultrametric spaces* 324
Fel'dman, I. A. *On the finiteness of the discrete spectrum of the characteristic equation in the theory of radiative transfer* 379
Feller, M. N. *On the solvability of infinite-dimensional elliptic equations with constant coefficients* 61
Fil'čakov, P. F. See Mitropol'skiĭ, Ju. A.
Filippov, V. V. *On locally connected spaces* 666
Freĭvald, R. V. *On the limit synthesis of numbers of general recursive functions in various computable numerations* 1681
Gabasov, R. and Morduhovič, B. Š. *Individual existence theorems for optimal equations* 576
Gač, P. [Gács, Péter] *On the symmetry of algorithmic information* 1477
Gačok, V. P. *Markov processes and quantum fields* 1072
Gadžiev, A. D. *The convergence problem for a sequence of positive linear operators on unbounded sets, and theorems analogous to that of P. P. Korovkin* 1433
Galba, E. F. See Molčanov, I. N.
Garipov, R. M. *A nonhyperbolic boundary-value problem for the wave equation* 1637
Gasymov, M. G. See Veliev, M. B.
Gavrilov, V. I. *Behavior of meromorphic functions along a chord in the unit disk* 725
Geče, F. I. *Abstract analytic spaces* 1204
Geĭdel'man, R. M. and Krugljakov, L. Z. *On planar surfaces* 1507
Germeĭer, Ju. B. *Weakly stable simultaneous solutions in recursive games* 813
Gevorkjan, Ju. L. and Gurariĭ, V. I. *Some theorems on subspaces and sequences in Banach spaces* 1199
Gil'derman, Ju. I. *On dynamical systems that are linear in cones* 406
Girko, V. L. *Limit theorems for eigenvalues of random matrices* 636
Gisin, V. B. *On a class of bicategories* 1783
Gluskin, E. D. *On a problem concerning diameters* 1592
Gol'dberg, V. N. *On discontinuous solutions of nonlinear mixed problems for almost linear hyperbolic systems in the plane* 93

Gol′dberg, V. V. *Isocline $(n+1)$-webs of multidimensional surfaces* 1437
Gol′dman, M. A. and Kračkovskiĭ, S. M. *Operators whose zeros form a finite-dimensional salient on the Riesz kernel* 669
Gol′dšteĭn, V. M. See Vodop′janov, S. K.
Goličev, I. I. *On some differential equations in Hilbert space* 260
Golubjatnikov, A. N. *On the integral representation of tensor functions* 729
Golubov, B. I. *Convergence of Riesz spherical means of multiple Fourier series* 410
Gončarskiĭ, A. V.; Leonov, A. S. and Jagola, A. G. *On the residual principle for solving nonlinear ill-posed problems* 166
Gorbacevič, V. V. *On the classification of homogeneous spaces* 904
Gorbunov, A. D. *Generalizations of the method of contraction mappings* 673
Gordeziani, D. G. *On the solvability of some boundary value problems for a variant of the theory of thin shells* 677
Gorin, E. A. and Lin, V. Ja. *On separable polynomials over commutative Banach algebras* 1357
Gozman, N. Ja. *On the image of the self-conjugate cobordism ring in the complex and unoriented cobordism rings* 953
Grincevičjus, A. K. *A central limit theorem for the group of linear transformations of the real axis* 1512
Grišin, A. M. and Bercun, V. N. *The iteration-interpolation method and spline theory* 222
Guc, A. K. *Mappings of an ordered Lobačevskiĭ space* 416
Gudivok, P. M. *On modular and integral representations of finite groups* 264
Gudovič, N. N. *On the construction of stable difference schemes of any order of approximation given in advance for linear ordinary differential equations* 1036
Gulisašvili, A. B. *An interpolation theorem of weak type and the behavior of the Fourier transform of a function having prescribed Lebesgue sets* 1481
Gurariĭ, D. L. *On Banach Lie algebras with compact adjoint action* 1154
Gurariĭ, V. I. See Gevorkjan, Ju. L.
Gurvič, E. T. *On adaptive control targets attainable by a set of automata* 681
Gutljanskiĭ, V. Ja. and Ščepetev, V. A. *A generalized area theorem for a class of q-quasi-conformal mappings* 1362
Habirov, S. V. *On some quasi-conformal mappings belonging to a Lie pseudo-group* 942
Hadžiev, Dž. *Some questions of topology in lattices* 1684
Hapaev, M. M. *On averaging in multifrequency systems* 1180
Himčenko, B. N. See Kamynin, L. I.
Hoang Tuĭ [Hoàng Tuy] *On an axiomatics for extremal problems and first-order necessary conditions* 978
On a general minimax theorem 1689
Holevo, A. S. *The theory of statistical decisions on an operator algebra* 1276
Hruščev, S. V. (see also Dyn′kin, E. M.)

Hrušč$\check{e}$v, S. V. *The removal of singularities for Cauchy integrals and an analog of the Hinčin-Ostrowski theorem for sequences of increasing functions* 198
Ibragimov, I. I. *On a method of representing an entire function of finite order* 1226
Ibragimov, I. I. and Ibragimov, S. I. *On the completeness of some systems of functions on curves* 111
Ibragimov, I. I. and Kušnirčuk, I. F. *On the equivalence of Bessel and Euler operators in spaces of functions analytic in a disk* 29
On completeness of systems of cylinder functions in analytic spaces 233
Ibragimov, I. I. and Nagnibida, N. I. *A multiply complete system of analytic functions* 285
On the completeness of a system of functions on a curve 1209
Ibragimov, I. I.; Linčuk, S. S. and Nagnibida, N. I. *On nearly power bases in an analytic space* 169
Ibragimov, S. I. See Ibragimov, I. I.
Il′inskiĭ, A. I. *On indecomposable components of some infinitely divisible laws* 542
Iordanskiĭ, M. A. *Minimal numberings of the vertices of trees* 1311
Ismaĭlov, A. Ja. *On the limit values of an integral of Cauchy type in Vekua's theory of analytic functions in regions with nonsmooth boundary* 1792
Ismaĭlov, A. Ja.; Mansurov, M. and Salaev, V. V. *On a singular integral in Vekua's theory of analytic functions* 640
Istomin, L. A. *On the solution of some inverse problems of mathematical programming* 290
Ivanov, A. V. *On mappings of Hausdorff spaces* 1729
Jablonskiĭ, S. V. *The structure of an upper neighborhood for predicate-describable classes in* P_k 1353
Jaglom, A. M. See Džaparidze, K. O.
Jagola, A. G. See Gončarskiĭ, A. V.
Jakovlev, G. N. *Some properties of generalized solutions of elliptic equations in divergence form* 1185
Jakovlev, M. F. See Molčanov, I. N.
Jakovleva, M. A. See Zvjagina, R. A.
Jakubov, È. See Rahmankulov, R.
Janenko, N. N. See Araĭs, E. A.
Južakov, A. P. *A generalization of the Lagrange expansion to arbitrary implicit functions* 1694
Kac, B. A. *A boundary-value problem with a nonhomeomorphic shift* 1641
Kakabadze, M. A. *On a singular boundary-value problem for a system of ordinary differential equations* 1213
Kalinin, V. A. *Approximative retracts for the class of bicompact spaces* 174
Kamynin, L. I. and Himčenko, B. N. *The maximum principle and local regularity (in the Lipschitz sense) of solutions of a second-order parabolic equation near the lateral part of the parabolic boundary* 1647

Kanoveĭ, V. G. *On degrees of constructibility and descriptive properties of the set of real numbers in an initial model and in its extensions* 866
Kanovič, M. I. *Complexity of the limit of Specker sequences* 299
"Complex" and "simple" numbers 1316
Kantor, I. L. *Invariants of homogeneous spaces with parabolic stationary subgroups* 452
Kantor, S. A. *On convergence of difference schemes in Banach spaces* 429
Karakulin, A. F. See Efimov, A. V.
Karapetjanc, N. K. *On a class of discrete convolution operators with oscillating coefficients* 735
Karasev, I. M. *On the theory of solvability of the Dirichlet problem in the spaces* $C^{(\alpha)}(G)$ *and* $L_q^{(\alpha)}(G)$ 1608
Karasev, M. V. *Expansion of functions of noncommuting operators* 346
Karlovič, Ju. I. (see also Baškarev, P. G.)
On integral operators with a shift of the contour of integration in the domain 740
Karzanov, A. V. *Determining the maximal flow in a network by the method of preflows* 434
Kaščenko, N. A. See Kiprijanov, I. A.
Kašin, B. S. *On Kolmogorov diameters of octahedra* 304
Katrahov, V. V. *On asymptotic properties of the spectral function of singular differential operators* 116
On the theory of partial differential equations with singular coefficients .. 1230
Kazarjan, G. G. *On hypoelliptic polynomials* 294
Kifer, Ju. I. *On the limiting behavior of invariant measures of small random perturbations of some smooth dynamical systems* 919
Kiprijanov, I. A. and Kaščenko, N. A. *On an averaging operator connected with a generalized shift* 1235
Kiprijanov, I. A. and Ljahov, L. N. *On a class of pseudodifferential operators* 1319
Kireĭtov, V. R. See Lavrent'ev, M. M.
Kiržner, V. M. and Ljubič, Ju. I. *An evolutionary equation and limit theorem for general genetic systems without selection* 582
Kiselev, F. I. See Demin, V. G.
Kissin, È. V. *C^*-algebras generated by dynamical systems and weighted shifts* 957
C^*-algebras generated by dynamical systems and N-dimensional weighted shifts 1733
Klimov, V. S. *Isoperimetric inequalities and imbedding theorems* 1047
Kobkov, V. V. See Kvasov, B. I.
Kočetov, I. I. and Rahmatulina, A. H. *Solution of some boundary value problems for elliptic equations with the aid of integral equations of the first kind* 546
Kolokol'ceva, I. I. See Rozenfel'd, B. A.
Kolokol'nikov, A. S. *On the growth of functions subharmonic in space, with a special distribution of masses* 1323

Konstantinov, M. M. and Baĭnov, D. D. *On the existence of solutions of systems of functional differential equations of superneutral type with iterated delay* 1087
Kopačevskiĭ, N. D. *On oscillations of a capillary, viscous, rotating liquid* 1738
The Cauchy problem for small motions of an ideal, capillary, rotating liquid 1797
Korobeĭnik, Ju. F. See Dragilev, M. M.
Korostelev, A. P. *On the mesh method for the Poincaré boundary-value problem* 1653
Korotkov, V. B. *On some properties of partially integral operators* 1114
Košmanenko, V. D. *On wave operators in the Haag-Ruelle scattering theory* 1401
Kotko, L. A. *On some evolution boundary value problems in variable domains* 869
Koval′čik, F. B. *Density theorems and the distribution of primes in sectors and progressions* 1521
Kračkovskiĭ, S. M. See Gol′dman, M. A.
Krasnosel′skiĭ, M. A. (see also Emelin, I. V.)
On quasi-linear operator equations 237
Krasnosel′skiĭ, M. A. and Pokrovskiĭ, A. V. *Periodic oscillations in systems with relay nonlinearities* 873
Krasovskiĭ, A. A. and Bukov, V. N. *Iterative solution of Kolmogorov's equation in statistical dynamics of continuous systems* 818
Krasovskiĭ, N. N. and Osipov. Ju. S. *On the theory of differential games with partial information* 587
Kravčenko, V. G. *On a singular integral operator with a shift* 690
Kravčenko, V. G. and Nikolaĭčuk, A. M. *On partial indices of the Riemann problem for two pairs of functions* 438
Kreĭnovič, V. Ja. *On the problem of metrization of spaces of kinematic type* .. 1486
Krivov, V. V. *On a generalization of the notion of conformal capacity* 592
Krjučkov, V. S. *Boundary embedding theorems for classes of differentiable functions connected with Lorentz spaces* 1802
Kronrod, M. A. *Two-dimensional sweeping* 597
Krop, L. E. See Plotkin, B. I.
Krotov, V. G. *Representation of measurable functions by series in the Faber-Schauder system and universal series* 351
Krugljakov, L. Z. See Geĭdel′man, R. M.
Kruglov, V. M. *A global limit theorem for sums of independent random variables* 1612
Kruškal′, S. L. *Stability of Kleinian groups* 822
On some properties of Kleinian groups and their deformations 1447
Kudrjavcev, L. D. *On a space of functions whose limiting values are trigonometric polynomials* 826
Kufarev, B. P. *Potentials and boundary correspondence* 461
Kurbanov, K. O. *Some classes of meromorphic functions characterizable by the spherical derivative* 695
Kušner, B. A. *On a type of computable real functions* 466
Kušnirčuk, I. F. See Ibragimov, I. I.

Kutateladze, S. S. *Some theorems of Choquet's operator theory* 645
Kernels of maximal operators and simplicial cones 962
Kužel', A. V. *An analog of the Sz.Nagy-Foiaş theorem for dissipative operators* 458
Kuznecov, S. E. (see also Dynkin, E. B.)
On the decomposition of excessive functions 121
Kvasov, B. I. and Kobkov, V. V. *Some properties of cubic Hermitian splines with additional nodes* 1162
Larionov, E. A. *Localization of the spectrum and two-fold completeness of normal motions in the problem of motion of a viscous fluid subject to surface tension forces* 1090
Lavrent'ev, M. M. and Kireĭtov, V. R. *On a class of mappings of bisurfaces in three-dimensional space* 776
Lazutkin, V. F. and Pankratova, T. F. *Asymptotics of the width of gaps in the spectrum of the Sturm-Liouville operator with a periodic potential* 649
Leĭbo, I. M. *On the equality of dimensions for closed images of metric spaces* 835
Leonov, A. S. See Gončarskiĭ, A. V.
Lerner, M. E. *The Tricomi problem with generalized gluing conditions* 1238
Levin, M. B. *An estimate for the derivative of a meromorphic function on the boundary of a region* 831
Levitin, E. S. *On differential properties of the optimum value of parametric problems of mathematical programming* 603
Lifšic, B. A. *On the central limit theorem for sums of random variables constituting a Markov chain* 1663
Lin, V. Ja. See Gorin, E. A.
Linčuk, S. S. See Ibragimov, I. I.
Linnik, I. Ju. *Spatial generalization of a theorem of M. Kac on the determinant of a Toeplitz operator* 1167
Liskovec, O. A. *On the solution of ill-posed problems with a closable operator* 1743
Litvinov, G. L. *Characters and simple representations* 179
On traces of operators and characters of irreducible representations in locally convex spaces 308
Livšic, M. S. *Discrete linear systems and their connection with M. M. Džrbašjan's theory of factorization of meromorphic functions* 1657
Ljahov, L. N. See Kiprijanov, I. A.
Ljapidevskiĭ, V. Ju. *On the uniqueness of the generalized solution of a system of equations of gas dynamics* 550
Ljaško, A. D. *On the correctness of nonlinear two-level operator-difference schemes* 471
Ljubič, Ju. I. See Kiržner, V. M. and Lomonosov, V. I.
Loginov, A. I. and Šul'man, V. S. *On reductive operator algebras and the invariant subspace problem* 745
Logvinenko, V. N. *On a multidimensional generalization of a theorem of M. L. Cartwright* 1617

Lomonosov, V. I.; Ljubič, Ju. I. and Macaev, V. I. *Duality of spectral subspaces and conditions for the separation of the spectrum of a bounded linear operator* 878
L'vin, S. Ja. *On a degenerate elliptic equation in Hilbert space* 1807
Macaev, V. I. See Lomonosov, V. I.
Mahmudov, A. P. *An application of the method of polynomial operators to the approximation of solutions of Nikliborc's ballistic problem* 1667
Maĭdurov, V. V. See Marčuk, G. I.
Malikov, H. M. *Compatibility of a system of ordinary differential equations and the solvability of the Cauchy problem for an overdetermined system* 654
Maljutin, V. V. See Rozenfel'd, B. A.
Malyhin, V. I. *On resolvable and maximal spaces* 1452
Mamedhanov, Dž. I. *Inequalities of S. M. Nikol'skiĭ type for polynomials in a complex variable on curves* 34
Estimates of the derivatives of analytic functions on curves 1095
